#### 五、教学方式

#### 六、教学过程中 IT 工具等技术手段的应用

#### 七、教材

There is no required textbook for this class. All class participants are expected to have a basic understanding of MBA-level finance.

For general overview, or to answer questions about definitions and conventional thinking about a topic, the following book is an excellent source of reference.

#### 八、参考书目

#### 九、教学辅助材料，如 CD、录影等

#### 十、课程学习要求及课堂纪律规范

This course requires a lot of reading, detailed analyses of some key papers in specific subject areas, class discussion, presentation, and composition of one-page summary/critique on **selective** core papers we discuss in class.

The success of this course will depend heavily on your preparation, participation and willingness to ask probing questions about the broader topic rather than just the specifics of any one paper.

As part of the course requirement, you must participate fully in class discussions. This includes the following:

Prepare to discuss and critique selective core papers on the reading list.

Hand in a one-page summary and critique of selective papers.

Present one empirical paper listed on JF, JFE and RFS.

Students will be assigned to present the papers on the course reading list.

---

Presentations should be in PowerPoint, *reasonably polished*, about 40-50 minutes long (practice and time yourself!), and flexible enough to accommodate questions from the audience and still finish on time. Email to all class participants a soft copy of your slides by midnight the night before class meeting.

The presenter is expected to be sufficiently prepared as to be an *expert* on the paper he/she is presenting, to lead the class in discussion of the paper, and should be able to answer any and all germane questions from the audience.
